THE WHOLESALE NURSERIES

— of —

Jackson & Perkins Company

Newark, Wayne County, (Near Rochester) New York

TRADE PRICE LIST

FALL 1913

SPRING 1914

Not "Made in Holland"

A Block of the famous Newark-grown Roses

Terms and Conditions of Sale

This list cancels all previous quotations.

PRICES. The prices named in this list are based upon present market conditions, and are subject to change without notice. We invite correspondence with prospective buyers, and shall be pleased to quote special prices on want lists calling for larger quantities than are named herein. On the other hand, these are *wholesale prices* and are applicable only to *wholesale* quantities; in no case will we fill retail orders, even though from nurserymen, at these prices. All orders must be made up in 10's or multiples of 10. Otherwise we reserve the right to decline them or to fill the orders at prices consistent with the quantity ordered.

PACKING. Will be done with every care, and always with the destination of the shipment in mind; we send Roses, Perennials, and other stock to the extreme South and to Pacific Coast points and very rarely have any loss in transit, owing to superior packing.

BOXES AND BALES will be charged for at *actual cost of materials used*. We make no charge for packing or for delivery to the railroad stations. We invite comparison of our charges with what others ask for the same sized boxes. Ours cost:

10 ft. x 10 in. x 12 in.....	\$1.10	6 ft. x 20 in. x 20 in.....	\$1.10
10 ft. x 14 in. x 16 in.....	1.30	6 ft. x 22 in. x 22 in.....	1.25
10 ft. x 18 in. x 18 in.....	1.70	6 ft. x 24 in. x 24 in.....	1.40
10 ft. x 20 in. x 20 in.....	1.80	6 ft. x 26 in. x 26 in.....	1.50
10 ft. x 22 in. x 22 in.....	1.90	6 ft. x 28 in. x 28 in.....	1.60
10 ft. x 24 in. x 24 in.....	2.00	12 ft. x 26 in. x 26 in.....	2.50
10 ft. x 26 in. x 26 in.....	2.10	12 ft. x 28 in. x 28 in.....	2.75
10 ft. x 28 in. x 28 in.....	2.25		

SHIPPING. We have the NEW YORK CENTRAL, the WEST SHORE, and the PENNSYLVANIA RAILROADS, and the AMERICAN, ADAMS, NATIONAL and WELLS FARGO EXPRESS, enabling us to ship in any direction over trunk lines. *All shipments travel at the risk and cost of the purchaser.*

TERMS. Usual terms to those of established credit or whose responsibility is *known to us*. Cash, security, or satisfactory references required of unknown parties.

All agreements and contracts are made subject to crop losses through unavoidable causes.

GUARANTY. We use every precaution to have all our stock true to label, and should any prove not to be so, we will replace it without charge or refund the purchase price, but all orders are accepted by us upon the mutual agreement between purchaser and ourselves, that we shall not be responsible for other damages.

CLAIMS. For any cause, must be made promptly on receipt of goods. Any stock that is not exactly as represented, may be returned to us immediately on arrival, and we will cheerfully and without question, credit back the unsatisfactory plants, or send others; but we will not entertain claims made after goods have been once accepted, or when report is not made within six days after arrival of the stock.

INSPECTION AND FUMIGATION. Certificate will be furnished with every shipment, and when required stock will be fumigated.

SPECIAL NOTICE. Correspondents are requested to use their printed business letter-heads. We do not quote prices to retail buyers nor sell to planters; we have *no retail trade* of our own, and sell *to the trade only*; in justice to our *only* customers, the Nurserymen, Florists, and large dealers who do their own packing, we use every effort to limit the distribution of trade prices to those we know to be entitled to receive them. *Use printed stationery.*

LOCATION. We are located thirty miles east of Rochester, N. Y., and cordially invite a visit and inspection of our establishment.

Respectfully,

JACKSON & PERKINS COMPANY.

Newark, New York, September 12, 1913.

The Kind of Roses We Grow at Newark.

Roses

ROSE-GROWING continues to be our LEADING SPECIALTY. Newark roses have a reputation the country over as is evidenced by the large florists' trade we have built up during the past few years. Florists require, and will accept, nothing but the very best plants that can be grown. That is the kind we have been producing and they have made "J. & P." roses the standard. Our usual large stocks for the present season.

Having no retail trade of our own, sending out neither catalogs, nor agents, and selling nothing to planters, our ONLY customers—the Nurserymen and Florists—can expect the best we can grow.

b Budded Plants

o Own Root Plants

NOTE—When shipment is required so early in the fall as to make stripping necessary, an extra charge will be made of 1c each for Ramblers and Climbers, and ½c each for other roses.

GRADES—For fall delivery, we offer only No. 1; in the Spring, we can supply Medium Grade plants at 30 per cent and No. 2 at 50 per cent off these prices.

Ramblers and Climbers

The price is by the hundred. Special prices on large quantities. Two years No. 1, except as noted.

Per 100		Per 100	
o	ADRIAN REVERSCHON, a good pink Rambler from Lambert	o	EXCELSA (Red Dorothy Perkins).....

For late Fall, and Spring delivery, we can supply any varieties wanted in Imported Tree Roses @ \$20 the hundred, if ordered early.

Half Standards, \$25 the hundred

BABY RAMBLER.

Tree Roses on stems just half the usual height

MRS. CUTBUSH.

Hydrangea Otaksa

In addition to the immense quantities that the florists bring into bloom under glass, nurserymen use large quantities of these showy summer-blooming plants for porch and lawn decoration, and very effectively, too. We grow some 30,000 annually in six-inch pots, outdoors; for prices and sizes, see last cover page.

We cannot undertake to supply long and much assorted list of stock calling for only small quantities of each kind, save at an advance of 10 to 20 per cent above our printed rates.

Clematis

Clematis Paniculata

Our success in growing Clematis free from the dreaded disease found in the Holland-grown plants, and the demand for the home-grown stock, has enabled us to hold the lead as the largest growers of Clematis in the world.

We grade our Clematis in three sizes, as we do our roses, and offer two grades under No. 1, which are described as follows:

No. 1½ grade will consist of plants just under first grade. They will be good thrifty stock, splendid plants for mail orders and suitable anywhere that an extra heavy grade is not required.

No. 2 grade will also do very nicely for mail trade, being healthy, well-rooted plants. We also recommend them for transplanting and growing on, as they will make fine, strong plants very quickly.

"I opened the two boxes of trees, received from you, Saturday afternoon, and found them all right. In fact the best lot of stock I have received this year."

Connecticut

This list is intended for the trade only, and the prices given will be applied only when the quantities required are such as to entitle the purchaser to wholesale rates.

Peonies

It is not necessary to grow a thousand or even a hundred varieties to have a collection that will include everything really worth while. We have sifted out all the duplicates, eliminating those with defects of any kind, and present here an assortment covering the entire range of colors, extending over the blooming season, and representing the very best out of hundreds of varieties gotten together from specialists in France, England, Holland and Japan and in this country. Strong divisions with 3 to 5 good eyes.

	Per 100
CAMILLE CALOT, light rose.....	\$10.00
CARNEA STRIATA, pale flesh, shading to almost pure white.....	9.00
CHARLEMAGNE, creamy white, center light lilac, flesh shaded with chamois, late.....	20.00

Roses and Clematis

Feb. 3, 1913. "Arrived in No. 1 condition—the best lot of plants we have ever received."

New York, Mar. 29-13.

"Your last order jst in. Full count—good goods—perfectly satisfactory."

We cannot undertake to supply long and much assorted list of stock calling for only small quantities of each kind, save at an advance of 10 to 20 per cent above our printed rates.

Tree Lilacs

Our success in growing *Hydrangea Paniculata Grandiflora* in Standard, or Tree-form—(we were the first American Nurserymen to grow Tree Hydrangeas, by the way)—led us to attempt some TREE LILACS. Those we delivered in previous seasons gave the utmost satisfaction; our block this season is quite as good. There is a demand for shrubs in tree-form; these handsome specimens will deliver well and buyers will see that they are getting something for their money.

Attention is asked to the complete assortment of varieties, including all shades of color and Double and Single forms; the list was made up from the best in the Highland Park collection of Lilacs in Rochester, N. Y., and includes the cream of the Lemoine Hybrids.

PRICES

	Per 100
Tree Form, 4-5 ft.....	\$25.00
Tree Form, 3-4 ft.....	20.00
Bush Form, 2-3 ft.....	15.00
Bush Form, 18-24 in.....	10.00

(Note: The following varieties can be supplied in all grades, except as noted: Varieties marked * cannot be supplied in the 4-5 ft. grade; and those marked o cannot be supplied in the 3-4 ft. grade. Those marked "a" can be supplied in bush-form in 3-4 ft., 2-3 ft. and 18-24 in. grades. "b," 2-3 ft. and 18-24 in. grades only, in bush-form.

- S, single D, double
- *a **Aline Mocquery.** S. Dwarf, compact growth; flowers dark purplish red; a profuse-blooming sort, and one of the finest of all Lilacs.
- a **Alphonse Lavallee.** D. Blue, shading to violet; extra large panicles.
- Amelie Duprat.** D. Very double, lilac-colored flowers, borne in short heavy panicles.
- a **Boussingault.** D. A new, light blue lilac.
- *o **Charles Joly.** D. Dark reddish-purple.
- a **Charles X.** S. The well-known favorite, purplish-red variety; strong, rapid grower; trusses loose and graceful.
- a **Colmariensis.** S. Very large, pale-blue flowers, and fine glossy foliage.
- *b **Congo.** S. Flowers large; wine-red; very double and compact.
- a **Crampel.** S. Enormous bluish-lilac flowers with white center.
- b **Dr. Breitschneider.** D. Purplish in bud, opening white; late; very much on the order of *Villosa*.
- *b **Dr. Masters.** D. Spikes a foot long; flowers very light, clear lilac, with lighter center.
- Dr. Troyanowsky.** D. Enormous panicles, broad rather than long; mauve.
- Edouard Andre.** D. Very clear rose-colored flowers.
- *a **Frau Dammann.** S. The truss is immense, the flowers of medium size and pure white.
- Japonica.** S. Creamy white, in large panicles; a month later than other lilacs; grows into a small tree.
- Lamarck.** D. Very large panicles; flowers large, very double; rosy-lilac.
- Lilarosa.** S. Silvery pink; very desirable.
- a **Leon Simon.** D. Compact panicles of bluish crimson flowers.
- Louis Van Houtte.** S. Dark red flowers in large panicles.
- Marc Michaeli.** D. Very large spikes of enormous double flowers; clear lilac-blue; nearly white underneath.
- Mathieu de Dombasle.** D. Medium-sized panicles; flowers small and very double; reddish mauve in color; very free flowering.

- a **Marie Legraye.** S. The panicles of pure white single flowers are very fine and fragrant; an excellent forcing variety.
- * **Madame Abel Chatenay.** D. Pure white; double; large panicles.
- a **Madame Lemoine.** D. Pure white; fine.
- a **Michael Buechner.** D. Dwarf; very double; pale lilac.
- Othello.** S. Dark, purplish-red; large, graceful panicles of single flowers; a good one.
- * **Philemon.** S. Showing possibly the darkest shade found in lilacs, and one of the very best.
- President Loubet.** D. One of the darkest lilacs; long compact spikes of enormous flowers, reddish carmine in bud, and opening purplish-red.
- a* **President Viger.** D. Bluish-lilac; an extra fine variety.
- Princess Alexandra.** S. One of the finest white varieties; large panicles.
- ao* **Senateur Volland.** D. Double flowers of rosy-red color.
- a* **Souvenir de Ludwig Spaeth.** S. Panicles long; individual flowers; large, single, dark, purplish-red; a well-known and favorite variety.
- a **Toussaint L'Ouverture.** S. Very dark, purplish flowers, single and oddly crinkled petals.
- a **Viviand-Morel.** S. Very long spikes; flowers of medium size, round and double; light bluish lilac with white center.
- b **Villosa.** S. Large panicles; flowers light-purple in bud, opening white; late.
- a **William Robinson.** S. Violet-mauve, clearer underneath; irregular flowers in long spikes.

Cherries, on Mazzard, 2 and 3 years

We especially recommend Cherries grown on Mazzard stocks. They are much longer lived and more vigorous than on Mahaleb. They are the only trees for orchard planting. Mazzard isn't so good a stock for the nurseryman—unless he knows exactly how to handle them. That is why the trees cost more,—and they are worth more.

APPLE SEEDLINGS, Topeka-Kansas-grown, from our own blocks, and graded up to the highest standard. On account of the impossibility of making prices on seedlings except for *immediate* acceptance at this season of the year, we ask intending buyers to *write for quotations*, and *we guarantee our prices* to be in line with the market.

FRENCH STOCKS. We sell these, both the Fruit Tree Seedlings and Ornamentals of all kinds in sizes suitable for nursery planting, for Mr. Charles Detriche, Sr., Angers, France, whose new complete catalogue will be sent post-free on application.

This list is intended for the trade only, and the prices given will be applied only when the quantities required are such as to entitle the purchaser to wholesale rates.

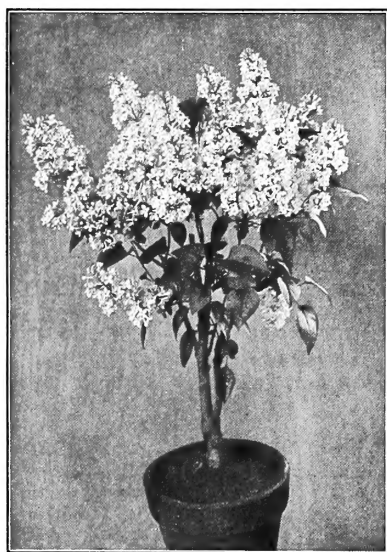

Pot-Grown Hydrangeas

One of the "J. & P." Specialties. We grow 30,000 Otaksa alone. This staple old variety has made more money for Florists than all the others put together. They are always salable at Easter and Decoration Day. Our plants are all grown outside in 6-inch pots and we offer one of the best lots we have ever grown at the following prices:

Plants with 7 to 10 branches.....	\$25 per 100
Plants with 5 and 6 branches.....	20 per 100
Plants with 4 branches.....	15 per 100

We offer some of the best of the new French varieties like M^{me}. E. Mouilliere, Avalanche, Bouquet Rose, La Lorraine, M^{me}. Maurice Hamar, M^{lle}. Rene Gaillard, etc., in 6-inch pots at 30c each.

Pot Lilac.

POT-GROWN LILACS, for forcing. This is another line which we have added after several years of experimenting. We have found that we can produce home-grown plants that cost less than the imported and give better results. Last winter, in our greenhouses, we had Dutch and French Lilacs in bloom on the same bench with our own, and the home-grown stock was superior to either, every branch throwing a bloom. The picture shown is a photograph of one of these plants. Those we offer now are out of the same lot, with the further advantage of *another season's growth*. We offer: Marie Legraye, Souvenir de Ludwig Spaeth and Charles X, in 8-inch pots at 60c each.

ASTILBE JAPONICA. Heavy imported clumps grown especially for forcing.	
Gladstone at.....	\$ 8.00 per 100
Queen Alexandra at.....	10.00 per 100

We cannot undertake to supply long and much assorted list of stock calling for only small quantities of each kind, save at an advance of 10 to 20 per cent above our printed rates.

A BED OF RHODODENDRONS.

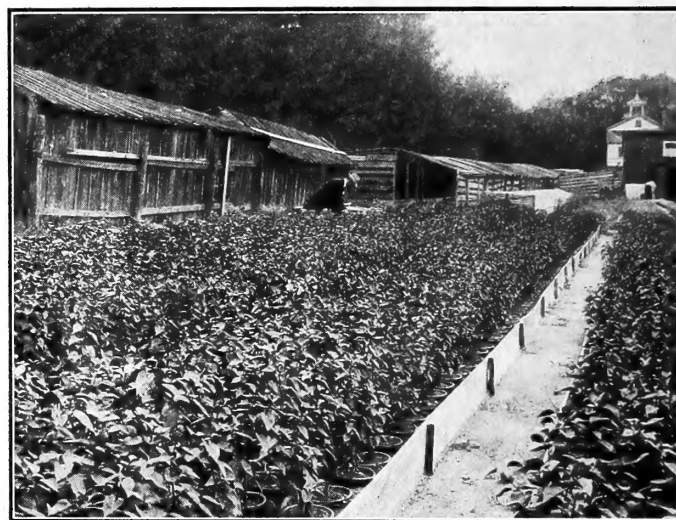

Just thrown together for the photographer,—about 6 x 4 feet, containing seven plants, **COSTING \$3.50 WHOLE-SALE.** What would you get for such a bed from a retail buyer?

RHODODENDRONS

For several years now, we have been importing Rhododendrons in large quantities. Our shipment of *five car-loads* last Spring was the largest single shipment of Rhododendrons that ever came to this country. We shall have as many again next Spring. Good plants and low prices are the combination that enables us to sell such quantities. We buy on the ground—whole blocks—select the plants ourselves and very naturally can do better by our customers than wholesalers who import only small quantities. Our representative is in Europe now picking up bargains in good stock. Our Rhododendrons will be 18 to 24 inches high, well-budded, balled-and-burlapped, and the price is 50c each; \$5.00 per dozen; \$40.00 per hundred; \$399 per thousand.

Pot-Lilacs—Home-Grown. The stock offered here.

Some More Pot-Lilacs; Our Present Stock.

*Finer Roses
than these
cannot be
found in the
Country*

HANFORD'S FLORAL HALL

R. G. HANFORD

NORWALK, CONNECTICUT

NORWALK, CONN.

Jackson & Perkins Co.,
Newark, New York.

Dear Sirs,

I do not believe a finer lot of roses than those you sent me can be found in the country—not one plant but is in perfect condition, every bud breaking to the very top.

You asked me to let you know about the roses that I bought elsewhere in order to obtain some varieties that you could not supply. They were pretty good plants, but somewhat shrivelled when received, and have not started as well as your stock. I think all will live and eventually make fair plants, but I would much prefer the dividends that would come from the same number of the "J&P Preferred".

Yours truly,

R. G. Hanford
